

# Gel Co.<sup>TM</sup>

— L O N D O N —

HEMA FREE

## Application Guide

### STEP 1: Nail prep

- Clean and sanitise your hands.
- Repeat with your customer's hands.
- Push back the cuticles, trim excess.
  - Shape the nail using a Gel Co London 220/240 grit file.
  - Using a Gel Co London 100/180 grit Buffer, carefully buff the nail plate to remove shine.

### STEP 3: Gel colour

- Apply a thin coat of any Gel Co London gel colour, seal the free edge and cure for 30 to 60 seconds.
- Apply a second thin and even coat of colour, seal and cure.

### STEP 2: Base coat

- Apply a layer of Gel Co London base coat.
- Seal the edge and cure for 30 to 60 seconds.

### STEP 4: Top coat

- Apply a thin layer of Gel Co London top coat
- Seal the free edge and cure.
- Cure for 30 to 60 seconds.
